

1 DAY

ADAWRITER USAGE

ADAWRITER is a rich procedural language that generates reports in a batch environment. Users are presented an overview of the ADAWRITER system and how it functions. This class is segmented into three areas--basic processing, conditional processing, and other user features (i.e., special user options, table lookup, virtual fields). The record selections via "Find" and "Read" are described followed by how to produce detail reports. Record selection and detail output report problems are worked. Post selection and break condition processing are presented with accompanying problems. Percentage and average calculation techniques are presented along with other statistical functions. An overview of ADAWRITER's other features are discussed such as subroutine calls, table lookup, virtual fields, etc.

ADAWRITER SUPPORT

Students are presented with a detailed explanation about the sitedeck and directory contents. Each ADAWRITER option (SYSTEM, GLOBAL, FILE, and FIELD) is discussed. Examples are given showing the effect of each option and how it might be used. The class is taught how to maintain the directory, which not only includes file definitions, but also definitions of subroutines, edit field subroutines, user files, tables, and virtual fields.

After this class, the student is prepared to fully and effectively utilize all of the features of ADAWRITER.

COURSE OUTLINE

CONCEPTS

Report request processing  
System Flow  
Compile/Execution  
Definition Options  
File Processing  
Directory Maintenance  
Table Processing

REPORT REQUEST SYNTAX

REPORT SELECTION AND REPORTING

Find (With...Coupled)  
Read Physical/Logical  
Display (Detail)

POST SELECTION PROCESSING

Sort  
Arithmetic  
If/Accept/Reject

CONDITIONAL PROCESSING

Breaks/at top/end/start/(eject,skip)  
Write  
Display(Format)  
Header

USER FILES

Find/Read  
User Subroutine Call

ADAWRITER FILE DEFINITION

Options-System/Global/File/Fields  
Options Default  
Details on File Definition  
User File Definition

SUBROUTINES

User Editing Subroutine  
Subroutine Definition  
Coding Conventions

CODE TABLES

Uses  
Organization(s)  
Definition  
Maintenance

VIRTUAL FIELDS

OPERATIONAL CONSIDERATIONS

Catalogue Procedures  
ADAWRITER Inputs/Outputs  
Run Deck Structures  
Report Requests  
Directory Maintenance  
Directory List

WHO SHOULD ATTEND

Everyone

PREREQUISITE

Using ADABAS

## COST INFORMATION

USING ADABAS	
software ag client .....	\$370
non-client .....	\$450
discount for second person .....	\$ 50
deposit for non-client .....	\$ 50
single days .....	\$125
ADABAS INTERNALS	
software ag client .....	\$350
non-client .....	not available
discount for second person .....	\$ 50
DATA BASE ADMINISTRATION	
software ag client .....	\$300
non-client .....	\$370
discount for second person .....	\$ 50
deposit for non-client .....	\$ 50
ADACOM	
software ag client .....	\$150
non-client .....	\$175
discount for second person .....	\$ 25
deposit for non-client .....	\$ 25
DESIGN	
software ag client .....	\$250
non-client .....	not available
discount for additional person .....	\$ 50
ADAWRITER	
software ag client .....	\$150
non-client .....	\$175
discount for additional person .....	\$ 25
non-client deposit .....	\$ 25
CHARGE FOR LATE REGISTRATION .....	\$ 25
NO-SHOW CHARGE .....	\$ 25

These charges include continental breakfast, two coffee breaks, and lunch. They do not include dinner or hotel.

## HOW TO REGISTER FOR CLASS

You may register for classes by completing one of the cards enclosed in the pocket on the back cover of this brochure. Mail the completed card to Weslee Desforge, Registrar, software ag of North America, Inc., 11800 Sunrise Valley Drive, Reston, Virginia 22091.

If you wish to register by telephone, call Weslee Desforge, Registrar, at 703-860-5050 between 8:30 a.m. and 5:15 p.m. Eastern Time.

A cut-off date of seven working days prior to a seminar, for both registration and cancellation, will be strictly adhered to. This is necessary because the hotels where seminars are held insist on a firm count at that time.

Please note that anyone who signs up for a seminar and then does not attend, without prior cancellation, will be charged a \$25 no-show fee.

If you have several people who wish to attend the same seminar, you should evaluate having the course in-house. Our registrar will be happy to discuss your needs and help with the arrangements.

WE RESERVE THE RIGHT TO LIMIT THE SIZE OF CLASSES. The class(es) will be held only if there is a sufficient number of registrants. If there is a cancellation, all registrants will be notified five working days prior to the class. REGISTER EARLY.

## CLASS INFORMATION

Classes will begin daily at 8:30 a.m. with a continental breakfast, and conclude each day (including last day) at 5:00 p.m.

Coffee breaks will be daily at 10:30 a.m. and 2:30 p.m., and a group luncheon will be served at 12:00 noon.

When you register for classes, you will receive a package which will include your letter of confirmation, information about hotel registration and reservations, and travel directions (i.e., location of hotel). This package will also provide some information about restaurants and recreational facilities in the area.
